# PROJECT OF THE MONTH

Effective March 1, 2011

We see and hear about so many imaginative applications of our brand that we felt it was time to recognize the "coolest" installations of PulseWorx products out there. Frankly, we're as proud of the work you do out there as you are, so we've decided to feature an installation every month that demonstrates excellence in PulseWorx system design, including:

- Integration with various sub-systems, such as security, etc.
- System scale (size)
- Imaginative applications & programming for a PulseWorx lighting control system.
- Variety of PulseWorx components in the system.
- These may not be the sole criteria, but they'll certainly be the foundation for our evaluation.

So, you ask, "What's in it for me?" Well, we'll feature you in our monthly newsletter, but more importantly, you'll be awarded a prize of **\$500 SMACKEROOS** worth of PulseWorx product. Wanna be in "the race"? Just fill out the form below and we'll be in touch, ... and in the mean time, ... all of us at Powerline Control Systems thank your for your support! Happy hunting out there!

**Qualifications:** Participants must be recognized and agree to the following.

- Be recognized as a PulseWorx Authorized Dealer or Certified Integrator
- Completed entries must be received by the end of each month to qualify.
- Include at least (2) 150 dpi photos of the project. Inside and outside shots will be helpful. Be a good photographer! By uploading your photos, you give your consent for Powerline Control Systems to use these photos in our marketing materials.
