Beautiful Homes

Deserve

Beautiful Lighting

Certification Class!

Come on in and learn something new!

WHAT: PulseWorx 101 & 102

WHEN: **November 13th, 2008**
8:00 am to 5:00 pm

WHERE: **HomeTech Solutions**
10600 S. De Anza Bl.
Cupertino, CA 95014

These classes are designed to introduce, educate and certify the professional home systems integrator and electrician to the advantages and benefits of PulseWorx Lighting Controls, powered by UPB.

These "hands-on" interactive trainings will demonstrate the inter-operational methodology of PulseWorx and how these devices can easily be installed in RETROFIT AND NEW INSTALLATIONS, ensuring ultra-reliability from the start. PulseWorx...the end of service calls and pulling wires.

PulseWorx 101- 8 AM- 12 PM

- The entire PulseWorx arsenal (as well as some sneak peeks as to what is in the future).
- Walk-through an actual Manual Programming session and see how truly simple it can be.
- Learn about the existing technology partners that are currently supporting the UPB technology.
- Find out about several lucrative programs to grow your bottom line.
- A PulseWorx 102 teaser will conclude this session.

PulseWorx 102 - 1 PM - 5 PM
(PulseWorx 101 certification is required. Laptop recommended)

- UPStart Software.- the key that unlocks the power and flexibility of UPB
 - Set up your network, add devices, and adjust the ramp rates of your dimmers, program functions for your keypad controllers, Create Links and much more...
- PW513 & XPW713 - Learn how to turn an X-10 Signal into a ultra-reliable UPB Command
- TEC Timed Events **SIGN UP NOW!** e timed events
